## HARDY ENGLISH WALNUT TREES For Fall Planting in Zero Climate

A grove of English Walnuts will bring you not only golden hours of pleasure, but golden crops as well. Our Glenwood Grown English Walnuts of to-day have been bred for health, hardiness and resistability in northern climates.

As a result we have to offer for sale this Fall 50,000 hardy, two year old English Walnut trees. Each one is a beautiful specimen in itself, superb for lawn or driveway.

We sincerely hope that you will let us reserve for you at least a few of these magnificent forest patri- cians for we are sure the enjoyment of raising them will richly repay you.

We are the farthest North growers of English Walnuts, and believe that our severe climatic conditions insure much hardier trees than can be grown farther south. From observation and years of experience for real practical purposes, we prefer and recommend for severe climates, trees kept closely to the parent type. We have the following varieties which we heartily endorse for Fall planting and which will grow and bear nuts wherever Peaches will live and are as easily cared for.

**Concord**—Native of California, enormous bearer.

**Mayette**—The Grenoble nut of commerce. Safe from late frost.

**Franquette**—Peer of all foreign varieties. Exquisite desert nut.

**Thompson**—Origin, Avon, N. Y. A commercial nut for severe climates.

Prices,	1—1½-ft.	\$ .50 each,
	2—3 "	.75 "
	3—4 "	1.00 "

\$ 5.00 per doz.

# OTHER HARDY NUT TREES

4 year old English Walnut Tree at Glenwood Nursery,  
Fairport, N. Y., commenced bearing 1915

Northern Grown for Universal Planting

Paper Shell Pecan

**PECAN—The King of Nuts.** Possessing as it does the desirable qualities of rapid growth, and enormous productiveness, producing paper shell nuts of excellent cracking qualities, full kernel and delicious flavor, it may well rank first among our native nuts in value and cultural importance. We recommend the following varieties for severe climates.

APPOMATTOX      MONEYSMAKER      STUART  
MANTURA      INDIANA

Prices,	2 to 3-ft. budded,	\$2.00 each,	\$20.00 per doz.	\$140.00 per 100
3 " 4 " "	"	2.50 "	25.00 "	\$150.00 " "
5 " 6 " "	"	3.00 "	30.00 "	" "

**Pecan Seedling Trees.** Strong vigorous trees, Rochester grown from Indiana seed. These trees often bear more delicious nuts than the budded trees.

Prices,	Two year, 12—18-in.	25c each,	\$2.00 per doz.	\$15.00 per 100
" "	18—24 "	35c "	3.00 "	25.00 " "
Three "	2—3-ft.	50c "	5.00 "	40.00 " "

Six trees at dozen rate, Twenty-five trees at hundred rate.

**SOBER PARAGON MAMMOTH SWEET CHESTNUT.** Controlled exclusively by us for several years and is the only large sweet chestnut in existence. Sober Paragon Chestnut will thrive in any place in the world wherever trees may live. Prices of Grafted Sober Paragon bearing trees, heavily rooted, handsomely branched.

This copyrighted metal seal is attached to every genuine tree.

Prices,	3—5-ft.	\$1.50 each,	\$15.00 per doz.	\$110. per 100,	\$ 850. per 1000
6—8 "	"	2.50 "	20.00 "	150. " "	1050. " "

We offer a limited number of SPECIMEN TREES, 8 to 12 ft. at \$10. each.

**FILBERTS.** Best suited of all nut trees for garden culture. Especially valuable as a filler for Walnut orchard. Bears the second year. We recommend the following varieties for Fall planing.

**American Filbert (Hazlenut).** Bears abundantly nuts of excellent quality.

**Purple Leaved.** Nuts large, thin shell, delicious quality, very ornamental.

**Kentish Cob. English.** Nut large, excellent flavor, beautiful as an ornamental

Prices,	2 to 3 ft.	\$.50 each,	\$5.00 per doz.	\$35.00 per 100
3 " 4 " "	"	.75 "	7.50 " "	50.00 " "

**BLACK WALNUT.** Every one should have at least a few of these splendid forest Kings which are becoming rarer every year. These trees on account of the great value of their wood and the delicious quality of their fruit grow into beauty and money faster than almost any other variety and are extremely desirable to own as both wood and nuts are always in constant demand.

5—7 ft.	\$.75 each,	\$7.50 per doz.	\$50. per 100.
---------	-------------	-----------------	----------------

**BUTTERNUTS (White Walnut).** This tree with its massive straight trunk, valuable wood is one of the noblest trees of the American forest, and is an asset to every property owner. It produces a large handsome nut, of delicious flavor and very nutritious.

Prices,	5—7 ft.	\$1.00 each,	\$9.00 per doz.	\$60.00 per 100.
---------	---------	--------------	-----------------	------------------

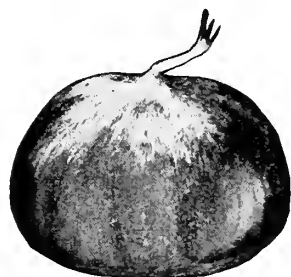

**Almond (Hard Shell).** The tree is very showy when in bloom. The kernels of the nuts are large, plump and sweet, hardy where Peaches succeed and easy to grow.

Prices,	3—4 ft.	\$.50 each,	\$5.00 per doz.	\$35.00 per 100.
---------	---------	-------------	-----------------	------------------

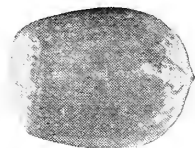

For those who have room for but a few trees and desire a variety we offer the following collection of Hardy Glenwood grown trees for ~~\$5.00~~ \$5.00.

- |                          |                           |                                     |
|--------------------------|---------------------------|-------------------------------------|
| 1 ENGLISH WALNUT,        | 1 PURE STRAIN FILBERT,    | 1 NORTHERN GROWN PECAN,             |
| 1 AMERICAN BLACK WALNUT, | 1 SOBER PARAGON CHESTNUT, | 1 AMERICAN WHITE WALNUT (Butternut) |

Full description of all nut trees may be found in our 1915 catalogue.

The Nut—actual size

Filbert

Butternut—white walnut

## This Grand Collection of 6 SUPERB PAEONIAS \$2.00

Extra strong divisions with 3 to 5 eyes  
PLANTED THIS FALL WILL BLOOM NEXT SEASON  
SINGLE PLANTS 50c EACH

**COMTE de NIEPPERG.** Bright carmine, blooms very early. A mass of gorgeous flowers of a delightful shade that makes one love them.

**DUKE OF WELLINGTON.** Sulphury white. Attracting much favorable comment from those who have seen it in bloom. Never disappoints.

**MARIE LEMOINE.** Pure white, very large, mass of flowers. Strong stems. One of the finest. Very late.

**MONSIEUR KRELAGE.** Wine color. No other Paeony of similar color can possibly take the place of Monieur Krelage. One of our favorites.

**QUEEN PERFECTION.** Yellowish white, center golden yellow. A Queen in itself. An admirable variety for planting singly or en masse.

**SOUVENIR de L'EXPOSITION de Lille.** Clear light rose color. Very fragrant. No collection complete without this magnificent variety. We cannot bespeak of its merits too highly.

Comte de Neipperg Paeonia

## ROSES—FAVORITES AT "GLENWOOD" Sweet Briars and Rugosas

### PENZANCE AND SWEET BRIAR ROSES

Extremely beautiful and most interesting are the Sweet Briars. Very fragrant single flowers of delicate tints and sweetly scented foliage. Prices—35c each, \$3.50 per dozen.

**LORD PENZANCE.** Soft shade of fawn or ecru, passing to a lovely lemon yellow in the center. A great grower and abundant bloomer. Very sweet scented.

**LADY PENZANCE.** Soft coppery tint. It is large, full and deliciously fragrant.

### RUGOSA ROSES

Of Japan origin, highly desirable for Fall planting on account of the large red berries which remain on the plants all winter.

Prices for heavy, two year old plants, 35c each, \$3.50 per dozen.

**ROSA RUGOSA RUBRA.** (Japan Rose). This beautiful race of roses was first introduced by Commodore Perry. Grows 4 to 5 feet high; beautiful, large, glossy foliage, distinctly wrinkled; flowers are red, 3 inches across, produced in terminal clusters of 10 to 20 flowers, and bloom all season, succeeded by large, orange-scarlet fruits which remain all winter, beautifying the winter landscape. Very desirable for mass planting and for hedges.

**RUGOSA ALBA.** Single pure white flowers of 5 petals; highly scented; produces yellow berries.

Rosa Rugosa Rubra

## Cottage Tulips

Late or May flowering Cottage Tulips, are now the most popular of all bulbs for Fall planting. They do not take the place of, but come into bloom immediately following the early varieties. On account of their increased size both of flower and stem they make a more handsome showing than other kinds. Cottage Tulips always appear to best advantage planted informally. They prefer a light, well drained soil, they should be planted at least four inches deep so that shallow rooted annuals may be planted over them after their blooming season is past. 3 for 15c; 35c per doz.; \$2.50 per 100; \$16.00 per 1000

**Bizarres,** Yellow grounds, striped with crimson, purple, etc.

**Florentine odorata,** Yellow.

**Gesneriana, spatulata** (major.) The very large and symmetrically formed flowers are borne on tall strong stems, and keep in good condition a long time. Brilliant crimson scarlet, with deep blue-black base.

**Golden Crown,** Yellow and rose.

**Isabella** (Shandon Bells) Cream, turning to rosy carmine.

**Violets,** White ground, striped or blotched with blue, violet, etc.

All colors and classes mixed. 35c per doz.; \$2.50 per C; \$16.00 per M.

# RANERE the *Real* Everbearing Raspberry

The heaviest cropping Everbearing Raspberry known. Producing its first fruit in June and continuing to produce quantities of large, rich, red berries every day until Fall frosts. When the first frost came last Fall thousands of plants in our nursery were literally loaded with fruit and blossoms in different stages of development. These are the plants that you will receive if your order is placed with us NOW.

St. Regis Everbearing is Good.

—Ranere Everbearing is Better

As a desert Raspberry Ranere is delicious, and who does not like Raspberry Pie, Raspberry Jam, and Raspberry Shrub? A dozen or two plants will supply the table of an average family all summer, and planted in quantity for profits it beats everything.

Ranere has a remarkable constitution, withstanding severest winters, as well as severe drought, does well on a very light soil or on a sandy soil. In fact, it is a success planted everywhere. It is a strong grower, with luxuriant foliage, which never suffers from sunburn. The berry is large size, and an excellent shipper. The fruit remains in good condition longer after being gathered than any other Raspberry.

It is a berry that has everything a Raspberry should have and *then some*. Ranere should be in every garden, city, town or country.

Strong 2 year plants, \$1.50 per 12; \$10.00 per 100; \$60.00 per 1,000.

## BLOWERS

BIG BLACK BERRIES

BIGGEST AND BEST MONEY-MAKER OF ALL BLACKBERRIES

RECORD—14 ft. and 1 in. extreme height of bush. 2694 berries on one bush. 2720 quarts from one-third acre.

ON SEVEN ACRES—30,206 quarts; 45,307 lbs.; 943½ bushels; 22½ tons.

\$2,121.75 NET F. O. B. HERE—\$303.10 average per acre. 153 bushels netted \$344.25 from best acre.

**The Quality**—Its sprightly, yet moderate acid taste, is indicative of the presence of those valuable medicinal properties without which the blackberry is worthless. A large, clean, bright berry. The fruit is exceedingly sweet, with no perceptible core, when fully developed. The flavor is pleasant without being peculiar. In fact, it is a blackberry from root to tip. It is a first-class shipper, standing up well for several days. Its marvelous size and splendid flavor have called forth the following comments by those who have observed it. "Most splendid fruit as to size, color and quantity that ever grew on blackberry bushes." "The berries are large and handsome and the flavor good." You can only appreciate the fruit by seeing our "berry orchard" in fruiting.

**Training**—Some people are successful with no trellis, but for convenience and to insure against damage by high winds, this support is preferable. Posts about 5 ft. long, cross-arms 15 to 20 inches. Grape wire stapled at each end of this cross-arm and running both sides of the row. No tying is necessary. This gives a chance to cultivate thoroughly and often.

**Season of Fruiting**—The season of ripening is from July 25th until frost. Price \$1.50 per 12; \$10.00 per 100.

We Offer Extra Fine Two-Year-Old Transplants

## A Continuous Flowering Shrub—Hydrangea Arborescens Sterilis

Popularly Called The Snowball-Hydrangea

Producing "Hills of Snow" from June until Fall

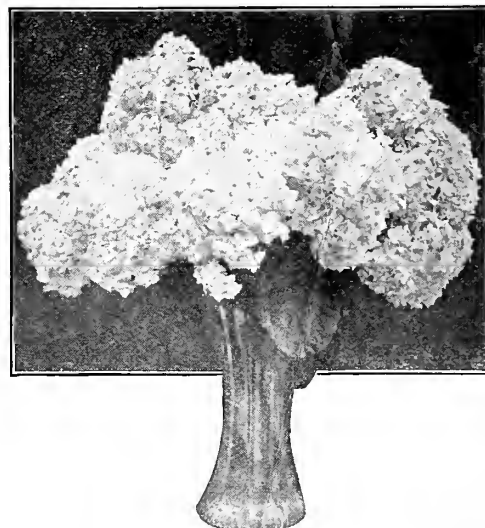

This new shrub is fast taking the place in public favor so long held by Hydrangea Paniculata Grandiflora. The flowers are purer white than those of Hydrangea P. G., are quite as large, and are borne in as great or greater profusion, remaining on the bush long after the foliage has disappeared, and well into the winter.

It has all the good qualities of Hydrangea Paniculata Grandiflora and others peculiarly its own. While quite as bold and striking in its general characteristics it is coupled with a grace and elegance not found in the old favorite. Grows four to ten feet high and is adapted for single specimens, groups or hedges. Its foliage is much finer than that of the well-known Hydrangea Paniculata Grandiflora. Every shoot terminates in a showy bloom cluster. It produces from July until Fall a bewildering profusion of flower heads, resembling giant snowballs—and much handsomer than those of other Hydrangeas.

Price 50c each; \$5.00 per 12.

**IMPORTANT**—In our own experience the best success has resulted in transplanting shrubs, trees and plants in the Fall, in properly prepared soil, and giving winter protection by mulching with litter or leaves. Such subjects usually start to grow promptly in the Spring, and have already made fine growth before Spring planted trees and plants have started. We do not hesitate to advise Fall planting in climates not more severe than our own.

Order early. Shipping season opens about September 20th, after which shipments will be made on dates requested by purchaser unless left to our discretion. 5% discount will be allowed for cash with order or any time previous to shipment.
